

Support Services Committee

November 21, 2013

John Schilling

The Support Services Committee met on Monday, October 28, and discussed the following:

- The North Wales Elementary School Additions and Renovations project is now closed out. All contractors have satisfied their obligations and final payment has been disbursed or will be approved for dispersment this evening.
- Inglewood Elementary School Additions and Renovations are substantially complete. Punch list work has been or is still being completed for all Prime Contracts.
- The committee also discussed the near final design of the Hatfield Elementary School Additions and Renovations, following a presentation of that design by the Architect. Conditional approval has been granted by the Hatfield Township Planning Commission, and the Committee asked that the presentation be placed on the November 12 Work Session Agenda for the full School Board to view.
- The administration reported on the status of the NPHS Camera upgrade and the Security Fencing project, as well as NPHS/ESC Energy Projects.
- The administration gave an update on Energy Efficiencies.

The next meeting of the Support Services committee is scheduled for this Monday, November 25 at 6 p.m. at the Educational Services Center.
