

## **Support Services Committee**

**December 11, 2014**

**John Schilling**

The Support Services Committee met on Monday, November 24<sup>th</sup>, and discussed the following:

- Mr. Medica of Bonnett Associates presented two scenarios regarding the scope of a potential future High School project. The two scenarios included a system only approach and the second scenario including a more comprehensive scope of work. The Support Services Committee discussed the scope of work included with each scenario and briefly discussed financing of the project. The committee requested that the Architect and Administration prepare a complete list of needs to be presented at a future meeting. The next presentation will be presented at a special work session of the Board and will include photos and videos of the building and systems.
- Two change orders and a Verizon Relocation Agreement for the Hatfield renovation and addition project were discussed along with two deduct change orders for the Natural Gas Conversion project. The four change orders and relocation agreement are on this evening's agenda for consideration.
- An update on the Pennfield and Pennbrook Security Camera projects was provided and both projects are now complete. This completes the installation of security cameras at the High School, Pennbrook, Penndale and Pennfield.
- A contract with MSDS Online was discussed and recommended to be brought to forward this evening for consideration. MSDA Online provides online MSDS information and updates for all materials in our buildings as required by Pennsylvania Department of Labor and Industry.

The next Meeting of the Committee is scheduled to meet on Monday, January 26<sup>th</sup> at 6 p.m. at the Educational Services Center.
